

TONY ROBBINS
**BUSINESS
MASTERY**
VIRTUAL

In the same way that a live concert provides a **fully immersive experience**, with lights, sound, music, energy, the Business Mastery Virtual is a live experience that can be massively enhanced by doing a few simple things to create a more immersive environment in your home!

Hook your computer up to a large monitor or smart TV to give you a bigger, better view of Business Mastery Virtual.

If you wish (and this is not required to still have a great Business Mastery experience!), upgrade your computer sound system with more powerful speakers and/or headsets.

Here are a few options that Tony recommends personally:

JBL CHARGE

Available at [Amazon](#), [Best Buy](#), and other electronics retailers.

WONDERBOOM

Available at [Amazon](#), [Best Buy](#), and other electronics retailers.

Alternately, you can invest in some great headphones. Here are two options:

HYPERX CLOUD II PRO

Available at [Amazon](#), [Best Buy](#), and other electronics retailers.

SOUNDMAGIC E11BT.

Available at [Amazon](#), and other electronics retailers.
